

Reuben Modell

AI Solutions and Operations Leader

Lakewood, NJ | 732-552-4475 | rmodell@gmail.com

SUMMARY

AI Solutions and Operations Leader with 15+ years across operations, systems, software delivery, process improvement, and team leadership..

Reuben combines 15+ years across business systems, operations, software delivery, process improvement, and team leadership with the ability to use AI and personalized software to improve cumbersome real-world processes.

Reuben's background spans hands-on software work, systems analysis, operations, team leadership, and practical problem-solving. Over time, his greatest value became less about personally completing every technical task and more about understanding the people, process, and objective well enough to lead the right solution from idea to execution.
